

Have yourself a rowing little Christmas – HRC Version

Have yourself a rowing little Christmas,
But Erg with all your might
For these strokes will make your rowing fast and light

Have yourself a rowing little Christmas,
Make your workouts pay,
Come the spring you'll be glad you didn't go astray.

All of us long for summer days,
Warm, flat water days for sure.
Great crew mates who are fit and strong
Rowing smooth and long once more.

Through the waves
We all will row together,
Our crews are number one
Winning races, staying fit, and having fun.
And have yourself a rowing little Christmas now.
